THE STATE MEDICAL FACULTY OF BANGLADESH

1st Year Final Examination of Diploma in Medical Technology course, January-2021

Subject: Basic Community Medicine (Paper-VI)

Full Marks-100 Time-3 Hours
Pass Marks-50

All question carry Equal marks.
Answer any four from each Question group.

Q-1	(a)	What are the major health programmes in Bangladesh?
	(b)	What are the indicators & dimensions of health?
	(c)	Define Mean, Median and Mode. Define & classify Sampling.
	(d)	What is immunity? What are the differences between active and passive immunity?
	(e)	What is MMR? Who are the high risk mothers?

Q-2	(a)	Describe Hospital acquired infection?
	(b)	What is health education? What are the objectives of health education?
	(c)	What are the preventive measures against CoVid-19. Writes shortly about Vaccination against CoVid-19.
	(d)	Define demography? Enlist the methods of data presentation.
	(e)	Define and classify data. What are the different methods of data collection?

Q-3	(a)	Define epidemic and pandemic with example.
	(b)	Define infection and infections disease. Write about infection chain.
	(c)	What are the general principles of prevention and control of communicable disease.
	(d)	Describe EPI vaccination schedule of Bangladesh.
	(e)	Define communication. What are the key elements of communication.

Q-4	(a)	Define communicable disease. Write down 5 communicable diseases with their causative agents.
	(b)	Define PEM. Write down WHO recommended Ante natal visits
	(c)	Define Vital statistics. Write down the uses of Vital statistics.
	(d)	Describe ANC and PNC.
	(e)	Define balanced diet. Write down the importance of balanced diet.

Q-5	Write short notes on:	
	(a)	Isolation and Quarantine
	(b)	Epidemiological triad
	(c)	ORS
	(d)	ICE berg of disease
	(e)	Comprehensive Health Care

THE STATE MEDICAL FACULTY OF BANGLADESH

1st Year Final Examination of Diploma in Medical Technology Course, January-2022

Subject: Basic Community Medicine (Paper - VI)

Full Marks: 100
Pass Marks: 50

Time: 3 Hours

All questions carry equal marks.
Answer any four from each question.

Q-01	(a)	Give WHO definition of health. What are the dimensions of health?
	(b)	Define epidemiological triad. Name the six stages of disease cycle.
	(c)	Discuss about objective of antenatal care.
	(d)	Discuss about prevention of non communicable disease.
	(e)	What ESP? State the components of ESP.

Q-02	(a)	Define Primary Health Care (PHC). Write down the principles of PHC.
	(b)	Define & classify vitamin. Write down the sources & deficiency disease of Vit- A.
	(c)	Define demography. Name the demographic processes.
	(d)	What are the causes of Low Birth weight (LBW) baby in Bangladesh.
	(e)	Define PEM. Write down the differecnce between Marusmus and Kwashiorkor.

Q-03	(a)	What is IUCD? What are the complications of IUCD insertion? Who are the ideal candidates for IUCD?
	(b)	Mention five major health program in Bangladesh.
	(c)	Define Biostatistics. Write down the uses of Biostatics.
	(d)	Outline the sources of air pollution. Write down (O5) five air born diseases.
	(e)	Define immunity. Write down the difference between active & passive immunity.

Q-04	(a)	What are the vital events? Enlist the methods of data presentation.
	(b)	Define health education. What are the objective of health education?
	(c)	What are the sanitation barriers? Illustrate the advantages of water seal latrine.
	(d)	Define balanced diet. Write down the importance of balanced diet.
	(e)	Define Mean, Median and Mode.

Q-05	Write short notes on:	
	(a)	WHO
	(b)	Isolation & Quarantine.
	(c)	Dengue fever.
	(d)	Vaccine.
	(e)	Occupational Hazards.

THE STATE MEDICAL FACULTY OF BANGLADESH

1st year Final Examination of Diploma in Medical Technology Course, January-2023

Subject: Basic Community Medicine (Paper-VI)

Full Marks: 100 Time: 3 hours

Pass Marks: 50

All question carry equal marks.

Answer any four from each question.

Q. 01	(a)	Define Community Medicine and Primary Health Care.
	(b)	What are the general principles of prevention and control of communicable disease?
	(c)	Define Biostatics. Write down the uses of Biostatics.
	(d)	Define Epidemiology. Mention the modes of disease transmission.
	(e)	Describe hospital acquired infection.

Q. 02	(a)	Define demography. Mention demographic process and demographic cycle.
	(b)	Define family planning. What are the scope of family planning?
	(c)	Define health, according to WHO. What are the indicators of health?
	(d)	What is vital statistics? Write down the uses of vital statistics.
	(e)	Classify methods of contraception.

Q. 03	(a)	Define disease. Mention the health care delivery system of Bangladesh.
	(b)	Define communication. What are the key elements of communication?
	(c)	Define MMR. Mention the causes of high MMR in Bangladesh.
	(d)	Define PEM. Wrote down the difference between Marasmus and Kwashiorkor.
	(e)	Define data. Enlist the methods of data presentation.

Q. 04	(a)	Define Mean, Median and Mode.
	(b)	Define health education. What are the objectives of health education?
	(c)	Outline the sources of air pollution. Write down the five air borne diseases.
	(d)	Write down the five common nutritional problems in Bangladesh.
	(e)	Describe EPI vaccination schedule in Bangladesh.

Q. 05	Write short notes on:	
	(a)	Anaemia
	(b)	MIS
	(c)	WHO
	(d)	Vitamin A
	(e)	Community clinic

THE STATE MEDICAL FACULTY OF BANGLADESH

1st Year (New) Final Examination of Diploma in Medical Technology Course, January-2024

Subject: Basic Community Medicine (Paper-IV)

Short Answer Question (SAQ)

Full Marks: 80
Pass Marks: 48

Time: 2.30 Hours

N.B Answer any four from each questions. Each questions carry equal marks.

Q.01	(a)	Define health according to WHO. Write down the dimensions of health.
	(b)	What is epidemiological triad? Draw and explain epidemiological triad.
	(c)	What is communicable disease? Name five communicable disease of Bangladesh.
	(d)	What is occupational health? Mention the hazards of industrialization.
	(e)	Write down EPI schedule of Bangladesh.

Q.02	(a)	What are the common health problem in rural areas in Bangladesh?
	(b)	What is disease? Mention the level of health care delivery system of Bangladesh.
	(c)	Define demography. Name the demographic process.
	(d)	Classify vitamin. What are the sources of vitamin C & A?
	(e)	Name the different methods of contraception.

Q.03	(a)	Define primary health care. Write down the principles of PHC.
	(b)	Define mean, median and mode.
	(c)	Define epidemic, endemic and pandemic disease with example.
	(d)	What is MCH? Write down the objective components of MCH.
	(e)	Write short notes on – i) UNICEF ii) Dengue fever.

Q.04	(a)	Define PEM. Give the difference between kwashiorkor and marasmus.
	(b)	Define health education. What are the objectives of health education?
	(c)	Enlist the five air and water borne disease.
	(d)	Write down the principles of prevention and control of communicable disease.
	(e)	Define personal hygiene. What are the factors of personal hygiene?

THE STATE MEDICAL FACULTY OF BANGLADESH

1st Year (New) Final Examination of Diploma in Medical Technology Course, January-2024

Subject: Basic Community Medicine (Paper-IV)

Subject Code: 104

Multiple Choice Question (MCQ)

Full Marks: 20 Time: 30 Minutes

Pass Marks: 12

N.B Read all the question options and fill up the circle 'T' for true and 'F' for false against each question in MCQ answer script.

01 Permanent contraceptive methods are-
a) Vasectomy b) Condom
c) Oral Pill d) IUCD
e) Tubectomy

02 Water soluble vitamins are-
a) Vitamin A b) Vitamin D
c) Vitamin C d) Vitamin B complex
e) Vitamin E

03 Epidemiological triad consist of -
a) Agent b) Host
c) Community d) Environment
e) Society

04 Following are the communicable diseases-
a) Enteric fever b) LBW
c) Covid 19 d) Anemia
e) Diarrhea

05 Barrier methods of contraceptives are-
a) IUCD b) Combined oral pill
c) Condoms d) Vaginal diaphragm
e) Vaginal rings

06 Mortality indicators are-
a) Crude death rate b) Incidence rate
c) Life span d) Sudden onset of illness
e) Child death rate

07 Lack of vitamin-D manifestations-
a) Rickets b) Osteomalacia
c) Scurvy d) Anemia
e) Night blindness

08 Sexual transmission may occur in case of-
a) Hepatitis - B b) AIDS
c) Typhoid d) Syphilis
e) Dengue

09 Following are the airborne diseases-
a) Typhoid b) Covid 19
c) Cholera d) Tuberculosis
e) Gonorrhea

10 Vital statistics include-
a) Birth rate b) Morbidity rate
c) Mortality rate d) Utilization rate
e) GDP

11 Penta valent vaccine includes-
a) Diphtheria b) BCG
c) Tetanus d) OPV
e) PCV

12 Water borne diseases-
a) Poliomyelitis b) Tuberculosis
c) Amoebiasis d) Typhoid
e) Mumps

13 Zoonotic diseases are-
a) Anthrax b) Rabies
c) Tetanus d) Measles
e) Mumps

14 Definition of health was given by-
a) UNICEF b) WHO
c) BRAC d) ICDDRB
e) FAD

15 Primary health care facilities are-
a) District hospital b) Community clinic
c) Union sub center d) General hospital
e) Specialized hospital

16 Elements of PHC are-
a) EPI b) Local disease control
c) Appropriate Technology d) Nutrition
e) Community participation

17 The following diseases are endemic in Bangladesh-
a) Covid 19 b) Malaria
c) Leprosy d) Goitre
e) Anthrax

18 LBW are-
a) Weight less than 3000gm b) Weight less than 2500gm
c) Can be prevented by ensuring proper ANC d) Have decreased perinatal mortality
e) Have increased risk of hypothermia

19 Key elements of communication process-
a) Advice b) Sender
c) Receiver d) Feedback
e) Counseling

20 Breast milk is-
a) Readymade and Sterile b) Contains growth factors
c) Costly d) Not easily digestible
e) Safe, clean and hygienic

Full Marks: 20
Pass Marks: 12

Time: 30 Minutes

N.B: Read all the question options and fill up the circle 'T' for true and 'F' for false against each question in MCQ answe script.

01. Specific Dimension of Health		**02. Approaches of interactions of disease transmission**	
a) Cultural	b) Emotional	a) Health Promotion.	b) Specific protection
c) Social	d) Mental	c) Early diagnosis and treatment	d) Disability limitation
e) Physical.		e) Rehabilitation	
03. Components of ESP		**04. EPI vaccination is given for prevention**	
a) communicable disease control	b) Non-communicable disease control	a) polio	b) Diarrhea
c)Monitoring and surveillance	d) B. C. C	c) Typhoid	d) Tetanus
e) Census		e) Pneumonia	
05. Most popular contraceptive method in Bangladesh		**06. LBW is**	
a) Condom	b) Hormonal pill	a) Wt > 2.5 kg	b) Wt < 2.5 kg
c) IUCD	d) Vasectomy	c) Wt < 2 kg	d) Wt < 1.5 kg
e) Tubectomy		e) Wt < 1 kg	
07. Water soluble vitamin		**08. Barriers of communications**	
a) Vit-A	b) Vit-B	a) Chemical	b) Psychological
c) Vit-C	d) Vit-D	c) Environmental	d) Cultural
e) Vit-K		e) Motivational	
09. Regional headquarters of WHO		**10. Air borne disease-**	
a) Western pacific- Egypt	b) Europe- France	a) Hepatitis	b) Typhoid
c) South-East Asia- Dhaka	d) Africa- Uganda	c) Polio	d) Malaria
e) America- Geneva		e) Giardia	
11. Epidemiological Triad		**12. Zoonotic disease**	
a) Agent	b) Host	a) Rabies	b) Anthrax
c) Community	d) society	c) Enteric fever	d) Bovine TB
e) Environment		e) Plague	
13. Components of behavioral Science		**14. Common School health problems**	
a) Psychology	b) sociology	a) HTN	b) Heart disease
c) Anthropology	d) Applied chemistry	c) Cancer	d) Helminthiasis
e) Computer science		e) Respiratory disease	
15. Fat soluble vitamins are-		**16. Bacterial Diseases**	
a) Vit- A	b) Vit- B complex	a) cholera	b) typhoid
c) Vit- C	d) Vit- D	c) Tuberculosis	d) Measles
e) Vit- E		e) Hepatitis	
17. STD are		**18. Demographic process are**	
a) Gonorrhea	b) Syphilis	a) Mortality	b) Marriage
c) AIDS	d) Measles	c) Migration	d) MMR
e) chicken pox		e) IMR	
19. Community medicine is a successor of a		**20. Disease Transmitted by droplet infection**	
a) Public health	b) Family medicine	a) Mumps	b) AIDS
c) Curative medicine	d) Community health	c) Covid 19	d) TB
e) Social Medicine		e) Tetanus
